WEB DEVELOPER

Aspiring MERN stack developer with hands-on experience in building full-stack web applications using MongoDB, Express.js, React, and Node.js. Developed projects like FlexiHours and a Confession App with authentication and real-time features. Also experienced in machine learning, implementing models such as XGBoost, Random Forest, and CNN for QR code security classification. Passionate about creating scalable solutions and continuously learning modern technologies.

WORK EXPERIENCE

TitansLab | Mern Developer Intern | Remote

May 2025 – July 2025

- Developed a dynamic e-commerce web application using MongoDB, Express.js, React, and Node.js within 6 weeks
- Implemented core features like user authentication, product listing, cart management, and order handling
- Designed responsive UI and integrated backend APIs to ensure smooth user experience and efficient data flow

PROJECTS

Online Health AI Assistant (MERN + AI)

- Developed an AI-powered healthcare platform with features like symptom-checking chatbot, emergency detection, and doctor consultation
- Integrated location-based hospital search, appointment booking, and medical report storage
- Implemented real-time communication along with a hospital dashboard and emergency doctor chat system

FlexiHours (MERN Stack)

- Built a full-stack employee tracking system with timer-based work monitoring and daily productivity calculation with monthly invoice generation.
- Implemented task assignment system and senior dashboard for managing employees
- Designed scalable backend and responsive frontend using MongoDB, Express, React, and Node.js

AWARDS

- Built an inventory system with real-time stock updates, product search, and price-based sorting
- Implemented low stock alerts and PDF report generation
- Developed interactive UI using Gradio for user-friendly experience

- Languages: JavaScript, Python
- Frontend: React.js, HTML, CSS, Bootstrap
- Backend: Node.js, Express.js, PHP
- Database: MongoDB
- Tools: Git, GitHub, VS Code

- Python Hackathon
 - Secured fifth position at "on the spot dashboard making using Python"

Creative Video Editor and Motion Designer with hands-on experience in producing engaging visual content for social media and digital platforms. Skilled in Adobe Premiere Pro and After Effects, with expertise in video editing, motion graphics, and storytelling.
